SUMMARY

Since **sophomore** year I have been Mobile Developer (iOS, React Native) at 021labs, company started by **Princeton & CMU** grads, while maintaining **GPA 3.96/4.0** in my university. I was part of one of the most successful e-commerce product team in country (accumulate **1M+ MAU** of all products, **100M $+ turnover)** and helped to increase App User Retention **6x**, reach **99%** crash-free sessions. In over 3 years I mentored **80+ people** on iOS development and Software Engineering (being Teaching Assistant, Mentor at bootcamp and Founder of my own Mentoring Program).
